Head-turning looks and effortless livability: you can have both.

Elm Grove™ Siding conveys the character of real wood, while exhibiting rock-solid durability, weather endurance and low maintenance. In other words, it's every bit as practical as it is aesthetically pleasing.

With its wide range of colors, carefree upkeep and rugged wind resistance, Elm Grove embodies well-thought-out design that stands up to the demands of time.

- **Never needs painting**
- **Won't warp, buckle or sag**
- **Surprisingly green**
- **Industry-leading Double Lifetime Warranty**

A sustainable exterior presence.

Elm Grove Siding is as green as it is colorful and curb appealing. It's engineered to eliminate the need for painting or staining, and represents its environmental friendliness in many different ways—from production and manufacturing to transportation and installation. For example, virtually all scrap materials are recycled during production, and no hazardous materials are emitted when it's cut for installation.

- **Manufactured from recyclable materials**
- **Rivals cedar in overall green performance**
- **1/3 the environmental impact of fiber cement**

Actual siding color may vary slightly from printed brochure.

Home is fully expressed when you discover the right color.

When it comes to how your siding presents itself, color is crucial. So we pay a lot of attention to what's trending and what works. Choosing your own colors can be fun, but a bit overwhelming. If you need a nudge, get ideas and tips from our color combining tool at RoyalBuildingProducts.com/ExteriorPortfolioColorCombos.

Mix and match shades to make a statement.

No matter which Elm Grove™ Siding colors you ultimately choose, we develop them all to project maximum curb appeal. Orchestrate them into the palette that sings to you, and you'll see amazing results.

Looking to add depth to a lighter featured color? Complement it with a deeper blue or tan in the porch area. Also, play with darker shades in windows and trim to add a flash of personality. If you're using a deeper shade in the main area of your exterior, add a more neutral color in the gables to bring the natural world into the color scheme.

We'll get you to your "wow" place.

Achieving the exterior that expresses your home the way you want it takes time, thought and the right combination of siding, trim, accents, color and dimension. But the experience doesn't have to be painstaking or frustrating.

We're here to make home remodeling exciting—whether you're searching for a complementary fusion of styles and textures or the homerun palette that takes your home to the next level. In addition to our products, we offer inspiration through LiveAbode™, our online design magazine. It will fuel you all year long with trending ideas, tips and thoughts on everything from maximizing landscaping space to upcycling lighting fixtures.

Color + Design

Speak Volumes

Choosing the exterior that hits home comes down to the personality you want to project and using different style elements to communicate that personality. Color can set endlessly shifting, memorable moods and has a big say in the curb appeal conversation. These examples show how much you can differentiate by varying color and texture.
